2. Add 1 tsp oil to heavy bottomed saucepan on medium heat. Once hot, add garlic and turn heat to low. Cook garlic for 2-3 minutes to soften. Add half and half, and stock to saucepan. Bring up heat to medium-high and heat until simmering.
3. Once simmering, turn heat to medium-low and add instant grits. Cook, stirring constantly, until grits begin to thicken; about 2-5 minutes. Once thickened, add salt, black pepper, and white cheddar. Stir until cheese is fully melted and grits are uniform. You may need to add a bit more water if mixture is too thick. Remove from heat and set aside.
